

Tychem® QC Coverall with Hood

Polyethylene-coated, provides excellent lightweight splash protection. Chemical cleanup and industrial site workers are provided with Level B protection against acids, bases and other liquid chemicals. Available with either serged, bound, or heat-sealed seams for increased holdout of liquids and dry particulates. Available in high visibility yellow. Suitable for light duty splash protection.

Tychem® SL Coverall

Provides a higher level of chemical protection than Tychem® QC. The fabric is a laminate of Tyvek® spunbound olefin by Dupont and Saranex 23-P® from Dow Chemical. Constructed with bound seams for light duty or occasional splash protection. Tychem® SL is the only Saranex laminated material for which DuPont supplies permeation data and technical support. Includes zipper with storm flap, attached hood, as well as elastic wrists and ankles.
