

Portable Safety Screens

Used for welding booths, grinding shields, draft barriers, machine enclosures, privacy enclosures, dividing partitions, and as noise and heat barriers.

The lightweight frame is constructed of plated, corrosion resistant, heavy duty, tubular steel; consisting of slip joint design with easy press spring locks for simple and adjustable assembly. Support legs are of adjustable spring lock design that allows leg to be folded parallel to screen for compact storage. Sturdy, plated hinges permit easy folding for compact storage and handling on two, three and four panel models. Heavy duty plated frame hooks secure curtains to frames.

| 003 - Blue 'See Thru' Vinyl | 006 - Combo Green/Yellow 'See Thru' Vinyl | 013 - 14 oz. Vinyl-Poly - Specify Colour |

Flexible 'See Thru' Vinyl Curtains

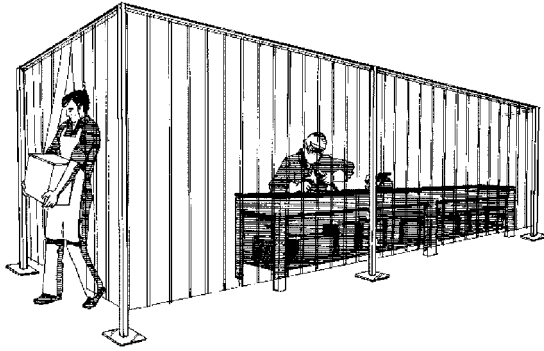

- 14 mil.
- Colours available: clear, yellow, orange, blue, green, Shade 8 as well as a combination of yellow and green
- All except clear exceed OSHA specification for screening or enclosing stick, MIG and TIG welding operations.
- Transparent vinyl curtains allow 100% visibility for screening where welding flash does not exist.
- Curtains isolate welding areas, protect adjacent workers, increase production when work can be seen in progress, and provide safety and immediate attention for injured workers.
- Heavy duty coloured transparent vinyl fabrics contain a special formulation which absorbs dangerous ultra-violet radiation and protects co-workers from eye flash burns.

Flexible 'Non See Thru' Vinyl Curtains

- Opaque safety screen curtains.
- Offered in a number of fabrics chosen for particular conditions, such as: heavy abrasion, moisture, and high-temperature.
- Curtains include ambient temperature fabrics.
- 10 oz. cotton duck in green; 14 oz. vinyl coated polyester in safety yellow, hunter green, black, blue, and white.
- Higher temperature fabrics are also available, upon request.

Safety curtains are also available in different sizes and fabrics.

See Thru-Gold Vinyl Strip Curtains

- Welding screens and booths
- Machine enclosures
- Grinding shields
- Unlimited access through the overlapping strip.
- For MS-VS222G, specify height and width when ordering.
- For MS-VR-220-G, specify strip length when ordering.
2" overlap recommended, two strips required per foot of width.

ITEM#	Description	Width	Thickness	Overlap
MS-VS222G	Gold 'See-Thru' vinyl weld strip curtain/ door with 2" overlap and complete with 2" x 2" x 3/16" angle iron mounting plate with appropriate fasteners on 2" centres.	8"	.080 mil.	2"
MS-VR-220-G	Gold 'See-Thru' vinyl weld replacement strips; cut to length and punched on 2" centres on top side; ready to mount	8"	.080 mil.	

Portable Welding Fume Extractor

- Arm shipped completely assembled and ready to bolt on main extractor cabinet.
- 6 inch diameter, 10' ducted arm with 360° movement.
- 750 cfm flow with 10' arm.
- Filter change indicator.
- Steel Cabinet.
- HEPA Filter, UL-586 approved, DOP tested 1000 cfm flow rate.
- 115 V AC motor, 12.5 amps
- 13" fume capture hood with adjustable flow damper.
- 5" Heavy duty casters.
- Meets OSHA standards.

ITEM#	Portable Fume Extractor
MS-PFE-750-8	Size: 27" W x 40" D x 32.5" H Weight: 307 lbs with 10' arm

CUSTOM OUTDOOR STORAGE

Outdoor Storage Buildings

Custom, prefabricated, hazardous outdoor fire-rated and non-combustible buildings for flammable and combustible liquids, chemical products, hazardous materials, and waste.

Custom designed to meet your requirements and to meet local and industry standards.
