Your Source for Safety

DO YOU COMPLY WITH THE LATEST SAFETY STANDARDS?

A.E.D.s – Automated External Defibrillators

Seeing is believing...

Don't make an AED purchase until you have seen the ZOLL AED Plus, in person.

If you are going to invest the money in an AED program...

Get all the facts.

ZOLL's AED Plus features Real CPR Help™, a tool that is able to actually see what you are doing and provide feedback to help you do it well.

Audio and visual prompts help you rescue with confidence and clarity unmatched by any other automated external defibrillator.

AED Plus also uses five year, consumer lithium batteries and offers an industry leading four year warranty on their CPR-D•padz™.

Not pushing hard enough? It will tell you when to push harder.

- Pushing hard enough? It will say, "Good compressions."
- Not pushing fast enough? A metronome will lead you to the right rate.
- It will even show you the depth of each compression. In real time.
- Not yet started? The AED Plus will tell you again to get started.
- Compressions stopped? It will tell you to continue.
