Your Source for Safety

## DO YOU COMPLY WITH THE LATEST SAFETY STANDARDS?

### EMERGENCY EYEWASH AND SHOWER FIXTURES

All ANSI approved eye wash/ shower fixtures must provide at least 15 minutes of continuous water supply. 32 oz eyewash bottles are not acceptable for most hazards.

Eyewash and/ or drench showers must be installed within 10 seconds travel time of the hazard area.

One hand, single action activation is mandatory

ANSI eyewash standards require that your water supply be kept between 60 °F and 100 °F for the whole 15 minute cycle. A thermostatic mixing valve may be required.
